

# Black Prong Equestrian Village Equine Health Document Requirements

**Intrastate horses:** Horses entering the grounds must be accompanied by documentation of Equine Influenza Virus and Equine Herpes Virus (Rhinopneumonitis) vaccinations within 6 months prior to entering the stables. Documentation should consist of one of the following methods mentioned below (It is recommended that vaccines are administered by or under the direction of a veterinarian.) As well as a negative Coggins test within 1 year prior to entering stables

In the case of vaccines administered by a veterinarian, the guest, must provide documentation from the veterinarian on documenting that the horse in question received the vaccinations, name of the vaccines and date of vaccine administration. A letter from the veterinarian on official letterhead with the name of the horse (or horses), name of the vaccines and date of vaccine administration and signed by the veterinarian is acceptable documentation.

In the case of vaccines administered by a person other than a veterinarian, the guest, must provide a receipt of the vaccine purchase which is signed by the owner, or agent with care, custody, and control of the horse; name, serial number and expiration date of the vaccine; and date of vaccine administration.

In the case of a horse that is unable to receive either of the vaccinations due to a history of adverse reactions, the guest, must provide a letter from the veterinarian on official letterhead stating that the horse in question cannot be vaccinated due to medical concerns and a log of temperatures taken twice daily for the seven days prior to entering the grounds. These horses must also have their temperature taken and logged twice daily while on the grounds. The log of temperatures should be provided to the office
